Smartphones
iPhone, iPad
& Co.

Professional delivery of your videos and Rich Media Webcasts, through our worldwide streaming server network.

Video server for Flash video, mobile and Windows Media streaming - live and on-demand.

Administer and publish your videos within our MDN (Media Delivery Network). All our tools and services include free support.

Features
Worldwide network of streaming servers, with external connections with more then 100 GBits/s • Own network infrastructure throughout Europe • Glass fibre cable network and high-performance availability • Affililated server centers in North America, Asia and Europe, as well as peering points to all international networks • Bandwidth for up to 10,000 concurrent users • Data replication - Geo Location: media data of all on-demand accounts is replicated/mirrored on various servers in Europe, USA and Asia immediately after being uploaded • Load Balancing • Continuous data protection: hard drive protection in a secure RAID group • Guaranteed network availability of at least 99,99 %.

Traffic Assistant
Use our Traffic Calculator to detect the data volume of your streaming project and choose a suitable live or on-demand account. All our accounts include a Custom-Player BASIC, as well as free support.

Product Recommendation
Custom-Player PRO. The PRO player offers you, in comparison to the BASIC version, following features:
Large or small "player controls" bar and buttons • Number of repeats • Link to the player • Editable playlist, incl. shuffle function • Live mode, time-based control of playlist events • Player available as download version, e.g. to be instigated from within protected URLs.
Custom-Player PRO Secure. Based on the functionality of the PRO version, the Secure version offers a further protection for your content:
Hard coded player URL: You name us one or more URL addresses, or URL address structures, into which the player may be embedded. We embed this information into the player's source code.

Demo Version
Feel free to test our live and on-demand accounts with a demo account, or contact us for a individual offer.
